LightSheer® Laser Hair Removal

A safe and effective way to remove hair from any area of the body, this treatment utilizes highly concentrated beams of light to penetrate hair follicles and inhibit future hair growth. Most patients usually need 6-12 treatments for a permanent reduction of hair growth in the area.

elōs® Photorejuvenation

Utilizes bi-polar radio frequency and optical energy to fade the appearance of skin imperfections caused by the sun. This includes rosacea, facial veins and redness, and age spots.

Treatment Area	\$ Per Tx
Spot Treatment	\$95-\$150
Nose & Cheeks	\$275
Full Face	\$350
Neck	\$300
Chest	\$350

Sublative® RF Skin Tightening

A revolutionary treatment that reverses the signs of aging on the skin. Typically used to treat the face and the neck, it works by heating the underlying layers of skin to stimulate collagen production. This in turn, causes the skin to look fuller and tighter. Wrinkles, fine lines, and other signs of aging are minimized, and the skin looks healthier and more youthful.

Treatment Area	\$ Per Tx
Spot Treatment (1" or less)	\$95
Full Face	\$550
Neck	\$550
Eyes (Periorbital)	\$300
